

Coronavirus (COVID-19)

March 2020

	<p>COVID-19 is a new illness. Lots of people call it Coronavirus.</p> <p>The American President calls it Chinavirus, because the first bit of Chinavirus sounds like Choo-Choo train.</p> <p>Coronavirus can really screw up your lungs and airways. Fo' real, bro.</p>
	<p>This person hasn't got Coronavirus. They've just bought too many supplies by mistake! They're phoning around to find out who else needs these items.</p> <p>The emergency legislation will soon decriminalise all forms of community retaliation against these people.</p> <p>Talk to other people if you're worried. Remember your friends and family and look out for them, especially the elderly.</p>

 <p>1 </p> <p>2 </p> <p>3 </p> <p>4 </p> <p>5 </p>	<p>These people are called experts. They know <i>everything</i> in the world.</p> <p>They write in funny zig-zags because it's a secret, and science, at the same time. They know how to scare the Coronavirus away for ever and ever.</p> <p>They need your help! Do these things:</p>
	<p>1) Keep your hands clean.</p> <p>ALWAYS wash your hands after washing your hands.</p> <p>This tap doesn't have any water left!</p> <p> Use a tap that works! Make sure it has water coming out of it.</p> <p> make sure the water from the tap is not:</p> <ul style="list-style-type: none">• too hot• a rainbow• carrying more than 100ml of liquid in a clear plastic bag <p> Do not touch other people, ever. Let them wash themselves!</p>

- ✓ This person won't bite! They need help to get the tissue unstuck from their face.
- ✓ Help people with tissue glued to their face to get help themselves.
- ✓ People who abuse substances can be signposted to a number of helpful organisations.

2) Play Charades.

These people are playing Charades. **You need more than one person.** They are pretending to have Coronavirus. The symptoms are:

- a new cough, and you keep coughing or
- a high temperature

If you have these symptoms, you might have Coronavirus!

After 7 days, if you feel better, you can turn the page on your calendar again. You can even draw a line through the days, if you want to.

If you have two calendars, try to keep them synchronised.

If you live with someone who has symptoms of Coronavirus, please stay at home for an extra two weeks! Those experts *are* kind, aren't they?

3) Find a travel Tiddlywinks board and get really good at playing it.

There are 3 people playing this game. If you are on your own, you will have to play by yourself.

You can't invite other people around.

4) Only use the NHS when you're actually ill. Don't be the person on Page 1.

If you:

- Have used all the electricity or Internet and you're bored, or
- Are about to eat the Tiddlywinks because you ran out of food And now you're hungry

then:

- you're **NOT** ill.
- If you have the symptoms on page 3, you can check **NHS 111 online** and follow the advice. Or phone **111** if you need to Speak to a medical adviser.
- **you should not go anywhere until you feel better.**
You carelessness could kill.

ProTip: If you have a power cut, phone 105.

 <p>Don't clap the NHS staff unless you want to look like an idiot. Just get out of their way and let them do their job. 111.nhs.uk</p>	<ul style="list-style-type: none">• Only get information about Coronavirus from places you can trust. <p>These places are:</p> <ul style="list-style-type: none">• The Internets• That woman who's always at the back of the 17B on Thursdays• Matey who worked at Fentons years ago with the gammy ear, You know the one I mean
